

BEST CON- LEAK PLUG

(Rapid Setting Water Plug)

Product Description:

Best Con-Leak Plug is a ready to use rich blend of special cement and chemicals in a single part dry powder form that's needs only the edition of clean water to produce an ultra fast setting mortar.

Use of Advantage:

Best Con-Leak Plug is easy to use , requiring only the addition of water, others beneficial properties are below:

- ❖ Instant Concrete leakage stop
- ❖ More archive high strength
- ❖ Rapid setting with Waterproofing
- ❖ Non-Shrinking
- ❖ Rapid Strength Development
- ❖ Excellent bond strength
- ❖ Non-Toxic.
- ❖ Good Adhesive properties.
- ❖ Extended working time.
- ❖ Iron & chloride free
- ❖ Low permeability

Application Area:

Best Con-Leak Plug is a suitable for patching clearance 20 mm or more, Such as

- ❖ —————> Stopping Leakages
- ❖ —————> Pointing & Caulking
- ❖ —————> Joint Sealing Concrete
- ❖ —————> Crack repair and filler
- ❖ —————> Patching Mortar and
- ❖ —————> Repairing honeycombs
- ❖ —————> Anchoring of bolts
- ❖ —————> Seal Cavities and Gaps
- ❖ —————> Recesses

Mixing Ratio Guide:

Best Con- Leak Plug (Powder): 4
Clean Water : 1

Mixing Instrument:

Best con-Leak Plug is easily mixed by Adding clean water mix either with a Trowel or Gloved hand.

Technical & Physical Data:

Form	Premixed Powder
Color	Light Gray
Compressive Strength (N/mm ²) (ASTM C942-81)	
1 Hour	>12
1 Day	>22
7 Days	>32
28 Days	>52

BEST CON-LEAK PLUG

(Rapid Setting Water Plug)

Instruction for use:

Surface preparation:

Concrete surface should be clean, sound And free from oil, grease , laitance and loosely and adhering particles

Area to be patched should be cut with a minimum depth 20-25 mm .

Safety:

Safety goggles and hand gloves must be used for personal protection while handling the product In case of contact with eyes, wash immediately in a good current of water under low pressure at least for 15 minutes. Consult physician if irritation persists after 24 hours.

Shelf Life:

Self life 12 Month from manufacturing date in sealed condition, keep within the temperature of 5°C to 40°C in dry place.

Application :

After mixing timing is important because of its rapid-dry characteristics. Placement time is limited to gelling period of 20 second . Use hand to hold and press manually when necessary until it achieves initial set.

Packaging:

5 KGS , 10 KGS , 20 KGS & 25 KGS Pail & BAG
